TO THE PUBLIC.—From the 1st day of July, 1851, the postage on the Daily American Telegraph, Washington city, D. C., will be, per quarter in advance, as follows:—Fifty miles or under, 25 cents; over fifty and not over three hundred, 50 cents; over three hundred and not exing one thousand, 75 cents, &c. Any person wishing served for three months after the above date need only pay his quarter's postage, and send us a gold dollar and a silver quarter in a small letter—postage paid, of course; or five dollars for a year. The *Telegraph* is inde-pendent in politics, polite, moral, agreeable, and familiar, prompt in furnishing the news, and a terror to all evil doers.

Sers. Editors of weekly and other papers desirous to exhange with us can pay the difference in the prices of abscription by giving a few insertions to the above noce.

HAVANA.-We do not favor stealing, robbing, plundering, or flogging anybody; but at the same time we wish it could be so that a general clearance could be given at Havana to all the Spanish vessels there, and that every Spanish sent to sea in them. Indeed, if right sure that the Cubans would set about this work in good earnest, we would not regard as felons such Americans as might be disposed to lend them a helping hand.

We have just read a published extract from a late Havana letter, that conveys no doubt a fair idea of the espionage and discipline of the island. It states that two youths of the University, of fourteen and sixteen years of age, drew the figure of a Republican flag on one of the walls in the Court, and wrote under it "Viva Lopez!" Inquiry soon brought the culprits to light, and they were imprisoned! They replied, when questioned, that they had merely done it to teaze the janitor, who was a staunch royalist. The Court condemned them to banishment! It is very evident from this, and other revelations of like character, that the sentiment and will of the people can never be known fully, and that they may, for many years, endure a despotic iron rule, without the ability to make a movement for their own welfare, and unaided even by the sympathies of their fellow men.

The discussion of the affairs of Cuba, present and prospective, becomes therefore the right of all who inhabit neutral ground, and we do not think any offence should be taken in any quarter should that discussion become minute and muskets, they must be helped with a good strong arm. It is idle to talk about non-interference, neutrality, and all these things. A nation thousands of miles across the ocean, who cannot govern her own peculiar dominions with the most perfect success, has no natural authority to place a tyrannical soldiery and an oppressive hierarchy over this island, and restrain every impulse of freedom and oppress a helpless people; and every republican who does not in his heart of hearts wish for the disenthralment principles he professes.

"Cupidity and avarice!" It is all a false hood! Ours is a representative Government, and we desire to "annex" no people to us who shall not be fully represented in our councils, who shall not receive a full return for every dime they shall contribute to our treasury. We do not wish to possess them any more than they shall possess us. And their mother country may be as dear to them as ever; not a tie need be broken, except the bond of injustice and oppression.

We have won Texas, New Mexico, and Calithing. The people of every land are welcome. whom monarchs oppress within their own all my interests in common with them. realms! Monarchs and monarchies can find no Your remarks yesterday commending the and we ask no tribute from him. The govmust be of his own creation, and must be we do when we receive into our communion and fellowship the regions round about us? In nothing, we answer, but the deeds of war, to we have to do. Warfare is an evil under all circumstances, and should never be willingly entered into by any people. Great advantages should be conceded to an adversary in the diboys should be punished and banished for drawing flags and inscribing vivas wherever they please! Faugh! what a satire on government do these recitals of pusillanimity afford! How abject a thing is a tyrant, and w hat folly willing to have a stone of the old pile removed. to let his tyranny live a day!

THE THIRD AUDITOR,-The late letter from this gentleman to the President shows that he is not only industrious, skilful ar d upright in each department of the labor, and American the discharge of his official duties, but that he of himself and his bureau when unjustly assailed. Mr. Gallagher is emphatically a working man, and an able one, too; and if they cannot hold up their heads and speak for themselves, we should like to know who can! He or the other, or to both, or else at the end the has worked as a printer, as an editor, as a Sen- contractors will come to Congress with a petiator in the Legislature of Virginia, and with a tion, and get as much additional money as good will everywhere. MORTALITY IN NEW YORK .- The report states that there were 341 deaths last tweek, of which to receive them with a warm welcome. But number eleven were by small-pox and thirtyseven by consumption. The p almonary diseases of New York do their work gradually, and do not therefore startle us so much; but we believe they are even more disastrous to human life than the fevers of New Orleans.

of wealthy gentlemen are associating together for the purpose of obtaining the American patent of the Fire Annihilator, and that an agent will soon be authorized to proceed to London to open negotiations, and to pay any price not exceeding a million of dollars.

AN EASTERN MUSEUM COMING .- A late Paris etter states, that "Abbas Pasha has granted to Dr. Abbott permission to remove from Cairo his noble museum and unique collection of some twenty years; and a portion is on its way to England. The whole will fill above a hundred enormous cases. It would seem to be destined for the United States, from the following remarks in a British letter from Egypt: 'I am ashamed to say that I envy our American brethren the possible possession of such a treasure; nevertheless, I confess I would rather hear of its being waylaid and stopped in England. Indeed, there appears to be some hope that this may happen.' Not a few of the American tourists who visit Paris proceed to Egypt and

STRAWBERRIES .- The aggregate value of little delicacies, hardly taken into the account of of a treaty between the two countries. The agricultural products is often startling in its amount. It is stated that "the daily average value of strawberries sent from Monmouth county, New Jersey, to the New York and Phiofficer in the country, civil or military, could be ladelphia markets, is \$4,000." Four thousand dollars a day for strawberries in one county ! Build up your villages and cities, and farmers will prosper! But this delicious fruit would not keep to be sent beyond the Atlantic. It is easier to bring the loom and weaver near the

> THE FLOODS IN THE WEST .- Life and fortune are alike often held by but a precarious tenure oring to evade, has been acquitted of the charges in our frontier countries; yet men are not brought against him of frauds and malfeasance thereby deterred from periling either in the dreadful chances, rather than pursue the slow and even tenor of a life without adventure. It is stated in the papers we receive that the recent rain-floods in the region of the upper Mississippi have raised the waters to a point six feet higher than was ever before known. Hundreds of thousands of acres of land have been submerged, and the results of years of laborious industry destroyed. Thousands of persons have been totally ruined. The skill and industry of man will, at a future day, protect much of this land from such inundations, but it will be long till then.

FOURTH OF JULY .- Several of our Sabbath schools have already determined to celebrate the approaching national anniversary in various parts of the surrounding woods. We learn that the country-seat of Mr. Berry, on the heights, and earnest. Negotiation is the only mode has been selected by the Wesley Chapel school; of conquest of which we approve; but if the the beautiful grove of Dr. Hawe, (formerly Cubans commence their negotiations with rifles Brown's,) by the school of the Fourth Presbyterian church; and that of Joseph Gales, esq., by the school of McKendree Chapel.

DR. AMATI'S VEGETABLE ITALIAN PANACEA.-Mr. Carusi has presented to us two bottles of this cure for "malarial and bilious diseases. fever, cholera morbus, dysentery, dyspepsia, and all other disorders of the liver." We have not of late been sick, and therefore have not had occasion to test this panacea; but we can with a clear conscience assure our readers that of a people so circumstanced, is a traitor to the it is very highly recommended by lawyers. statesmen, sailors, soldiers, physicians, and even editors, whose infallibility will not be questioned. It appears to be praised in an especial manner for its power over diseases incident to the summer season.

> THE CHOLERA.-It is stated that there were 119 deaths in St. Louis during the week ending on the 9th instant-58 of which were by cholera.

Would which we resort as necessary means, and these it have been so if that Capitol had been built are approved by the governments with which by contractors? No, gentlemen; they would not have desired to remain beside their work and see its imperfections, and their journeymen would not have relished our city so well as to remain here. ARRIVAL OF THE HUMBOLDT.

Four days Later from Europe. The steamer Humboldt, from Southampton, arrived at her wharf at New York yesterday evening at 6 o'clock. She brings four days later news. Her dates from London are to the 4th, and Liverpool to the 3d of June.

The Humboldt left Havre at 10 a. m. on the

4th, and arrived in Cowes Roads at 7 p. m. of

The Herman had arrived out in 15 days from New York, and the Europa arrived on the 1st of June in 11½ days. The Lafayette reached Liverpool on the 2d inst., having previously put into Queenstown for coals. Her air-pump gave way when three days out, and the rest of the passage was performed by her engines working high pressure.

The St. Lawrence sailed from Southampton for New York on the 3d of June; she was to touch at Lisbon to land the Hon. Mr. Hedderick, Charge to Portugal, who was the bearer commander and officers gave a grand entertainment, the day before sailing, to the mayor and corporation of Southampton, as a return for the hospitalities extended to them.

India. The overland India mail reached London on the 2d of June, with Bombay, Calcutta, and Madras dates to the 25th of April. There continued to be some disturbances on the Persian The disbanded troops were overrunning the Nisanis territories, and enacting every species of violence. The commercial advices from India are not

so favorable as brought by the last mail. Money was scarce, and at Bombay the fluctuations in exchange had produced a bad effect.

Portugal.

The Chamber of Deputies was dissolved on the 25th of May, and a new Cortez convoked for the 15th of September to revise the Constitution-The country was generally tranquil. Two regiments at Oporto attempted to get up a re-ac. tionary meeting, which was promptly suppressed.

Germany.

The King of Prussia had returned to Berlin from Warsaw, and assisted in the inauguration of the statue of Frederick the Great. The meeting of the Emperors of Russia and Austria at Olmutz was entirely of a military character.

France. The news relates almost entirely to the President's visit to the provinces, where he had been received with great enthusiasm. Louis Napoleon made a speech at Dijon of great political importance. His popularity was evidently on the increase, and it is said, should the election take place to-morrow, he would be re-elected. The Parisian journals are dissatisfied with the speech, and regard it as a declaration of

ar against the Assembly.

ket is easy. Consols were firm and tending upwards. American Securities steady. Accounts from the manufacturing districts are more favorable.

HAVRE, June 4th .- Cotton is in better demand, and the downward tendency in prices has been arrested.

The Humboldt brought seventy passengers.

CENSUS OF NEW YORK .- As the printing of the census of the United States will have to postponed until next year, for the want of an appropriation by Congress for the purpose, Mr. Disturnell, the map publisher of New York, proposes to publish the statistics of that State, provided the Legislature will grant, in aid he project, about \$1,200.

Sounding the Gulf .- At last dates from Key West, the parties engaged in the work of sounding the Gulf of Mexico were making a reconnoissance of Boca Grande Passage, about fifteen miles west of that place. A channel fifteen feet deep is said to extend from the Gulf Stream to the Bay, which, when buoyed out, will shorten the passage from the Atlantic ports to New Orleans about one hundred and fifty miles.

THE MAINE GOLD-BUBBLE BURSTED!-The

Kennebec Journal of the 12th instant says: We hear that a wagon-load of miners passed through this city, on their return from the "gold region," with very large fleas in their ears. They had been as far as the mines, and having labored five or six days were satisfied to his duty; our commissioner of public buildings return with an average of thirty cents per diem each. Another party of four, it is said, returned next day. After digging ten days with laudable perseverance, they concluded to "retire" upon an aggregate pile of two dollars and fifty cents! There seems to be little doubt that there is gold in the region indicated, but we think it will be found in decidedly homocopathic quantities. If a man is obliged to wash out ten bushels of dirt to get a picayune's worth of gold, it is not neessary to resort to algebra to prove that he had etter stay at home and dig on the railroad at a dollar a day. Some respectable lumps may be found, but they are as scarce as rock's eggs, you may be certain.

To the above the Journal subsequently adds

We have seen several of our citizens who returned yesterday and day before, from a tour of observation in the new gold region; and they give it as their opinion that nothing is to be nade in gold-digging, either in Maine or Canada.

CUTTING OFF THE LOCKS .- The Norfolk Aryus says that the Secretary of the Navy has re-Badger, requiring all persons connected with the Navy to wear locks of certain prescribed length, and to dispense altogether with the mustache, tuft and goatee.

CRIMINAL COURT .- The case of the United States vs. John Meyer, charged with forgery, which was begun yesterday, is still in course of trial. The testimony has not yet been concluded. Fendall and Woodward for the United States; Ratcliffe and Peck for the defence.

DESTRUCTION OF BONNETS .- The New York papers state, that the fire which broke out in the store of Messrs. Lunner & Wilde, Broadway, on Sunday night, destroyed straw goods to the value of \$10,000. We are assured by one who knows, that the manufacture of this kind of goods is much more profitable than the usual employment of our women, and that it is an art very easily learned.

MEADOW BANK MINERAL SPRINGS.

THE SUBSCRIBER, having completed his large and pleasant building upon his farm in the country, about three miles from Washington city, on the Turnpike to Bladensburg, is now prepared to receive boarders. Gentlemen with their families, or single persons, can be accommodated with board and lodging by the month, week, or day. Pie-nic or other parties can also be accommodated by giving previous notice.

Upon the Farm, near the house, is a Spa Spring, of well known medical properties, being strongly impregnated with Sulphur, Iron, Salts, and Magnesia.

There will be, at all times, at the Spring, Refreshments for visiters, viz: Lemonade, Ice-Cream, and all the Fruits of the season. Disorderly persons excluded from the grounds, and no visiters received on Sundays. He desires to be governed by the rules of Temperance, and consequently will furnish no liquor to his guests.

Means of conveyance from and to the city daily.

Every exertion will be made to render visiters comfortable, and he respectfully solicits the patronage of the public.

VIRGINIA AND MARYLAND LAND AGENCY VIRGINIA AND MARYLAND LAND AGENCY.

N. GILBERT has opened an office in Washington city, where he will give his prompt attention to all those who will favor him with the agency to sell farms in Virginia, Maryland, or the District of Columbia. Having followed farming heretofore, and being a northerner by birth, he can appreciate the wants of such as come from the North for the purpose of locating farms in this vicinity. He has the agency to sell a goodly number of farms in Virginia, and those coming from the North would do well to call, before purchasing, at his residence on Pennsylvania avenue, first square west of the Capitol Gate.
